TRAPSHOOTERS TO OPEN ON SUN.: APRIL 4

(SPECIAL TO THE TIMES)
WHITING, Ind., April 2.—The Whiting Trapshooters Club will open its shooting season Sunday, April 4th, at the Whiting Park traps. Regular practice begins at 2 P. M.
This is the third season that this organization has opened its club house to the public. A banner year in trapshooting is expected. With the boys all back from service and the long winter at an end, the devotees of the sport are all out to get their guns and traps ready for the opening day.
The people realize the amount of hard work, time and considerable outlay of money that is required to run a trapshooting club in an efficient and proper manner.

Any club, no matter what kind, must have a membership sufficient to equal and maintain the same. The Whiting Trapshooters Club at the present time has a membership of about fifty. The club is working hard to raise this number to one hundred and every trapshooter and devotee of this sport is welcome to join. The dues to the club are reasonable, in fact only enough to defray the expense of club house, shooting ground and trap equipment. As this is purely an amateur organization, it is not run for profit. The officials of the club are not receiving any compensation for their work done. Therefore, the management is asking every member to do his part in keeping the club and the sport.

The club house and shooting grounds are having a general overhauling and the traps are being looked over by an expert. Trapshooters who visit the club this year will be surprised at the number of fine trophies that the club is giving to shooters who compete in different events. All these trophies will be in display at the first regular shoot.
Shooters will be given more opportunity than ever before at the regular shoots than ever before, and in addition a beginner's class will be formed in charge of one or more trapshooters well qualified to instruct new shooters.

The club will shoot on the first and third Sundays of each month starting as stated before on April 4th. The public is always invited. Shooters as well as spectators will find the accommodations perfect, and to entertain you some of the greatest shooters in the Middle West, champions in their respective class, will show you how to break the mud snipers. It is up to you, Mr. Shooter, to make this a great trapshooting year and the Whiting Trapshooters Club will help you. The launch spring is always on the outside.
